1 History

The School Outreach Program started in the mid-1990s with Lillian Clementi and Amanda Ennis who

• pooled the existing presentation materials on a single website

• built the School Outreach Program around ATA's mission and vision

The web page with ready-made presentations has been running since 2003: www.atanet.org/ata_school

The first School Outreach Contest was advertised in 2004. Chris Durban suggested the idea of a contest to encourage members to do School Outreach.
First Winner, 2005: Ji Eun Lee
2 Why School Outreach

Professional benefits

• Raise and create **awareness**: Lillian Clementi: "In a class of 30 you might have one student who chooses a career in languages, but you also have 29 potential translation consumers."

• Provide guidance to young generation
2 Why School Outreach

• Personal benefits
  – Rewarding
  – Boosts ego
  – Practices presentation skills
  – New connections

• Earn continuing education points

• Win a free registration to ATA's 57th conference: Nov 2 - 5, 2016 in San Francisco, California.
2 Why School Outreach

Teacher feedback:

The students’ comments and evaluations clearly show that you as a presenter provided valuable information, **orientation and guidance** which is very important for our students when they choose a career.

Although none of the students plans to choose a career as an interpreter or translator they appreciated the extensive and well-founded information about **possible fields of activity** and the way it was presented to them, always including them into the discussion.
2 Why School Outreach: It is Fun!

ATA School Outreach Program

It's all about making a visit to your local school. Why?

Take part in preparing the next generation of translators and interpreters.

In schools all over the United States, an astonishing number of teachers are actively discouraging their students from studying foreign languages because "there are no jobs other than teaching" — this at a time when language capabilities are more critical to our national security and economic success than ever before. Some educators are so unfamiliar with our profession that they don't even know the difference between translation and interpreting. That means it's up to us to tell students what the professional standards are for qualified translators and interpreters.

Work to create awareness of translation and interpreting as professions.

The linguists-to-be in America's classrooms today are sitting next to a whole lot of clients-to-be. The more these future doctors, lawyers, and business owners know about our field, the more likely they'll be to appreciate the importance and complexity of our work and compensate us accordingly. In classrooms from grade school to graduate school, translators and interpreters just like you are not only educating the next generation of language professionals but also the next generation of clients.

Have fun.

Yes, believe it or not, most of the people who have done this will tell you it's an absolute blast!

Okay, I'm sold. But my local school has a security guard and a metal detector. How do I get in the door?

No problem. You'll find plenty of tips under Getting the Gig.

I'd like to try this, but I'm really nervous about public speaking. Can you help?

Absolutely. Be sure to read our General Guidelines for ideas on keeping your butterflies to a minimum.

I don't know how to prepare this kind of presentation. What will I say?

We've done our homework on this and have put together a page of Presentation Resource Materials. This page has links to four age levels: elementary school, middle school, high school, and university. Each level offers tips on what to say and how to say it, links to sample presentations and other materials that you can customize for your own use, a link to a handout for teachers, and an "extra credit" section with ideas that go beyond a quick presentation in the classroom.
3.2. Select a School and Contact a Teacher

- Your kids' school
  - Foreign language classes
  - Teachers responsible for career days
  - Teachers responsible for internships

- Career days and job fairs at local schools

ATA material: “Getting the Gig”:
- Lists all the information you may need to get in touch with a school
- Provides a sample cover letter
