

# 2025 GLD Membership Survey Results

# Introduction

As we began planning for 2025 and beyond, we (GLD Administrator Karen Leube and Assistant Administrator Robin Limmeroth) decided to survey our membership to better understand your needs and expectations for the future, with the aim of helping us plan relevant continuing education and social events, develop targeted networking opportunities, create resources that support your professional growth, and focus our efforts on what matters most to you.

The 10–15-minute survey was entitled:

***GLD member survey 2025: What would you like to see from the GLD in the coming year?***

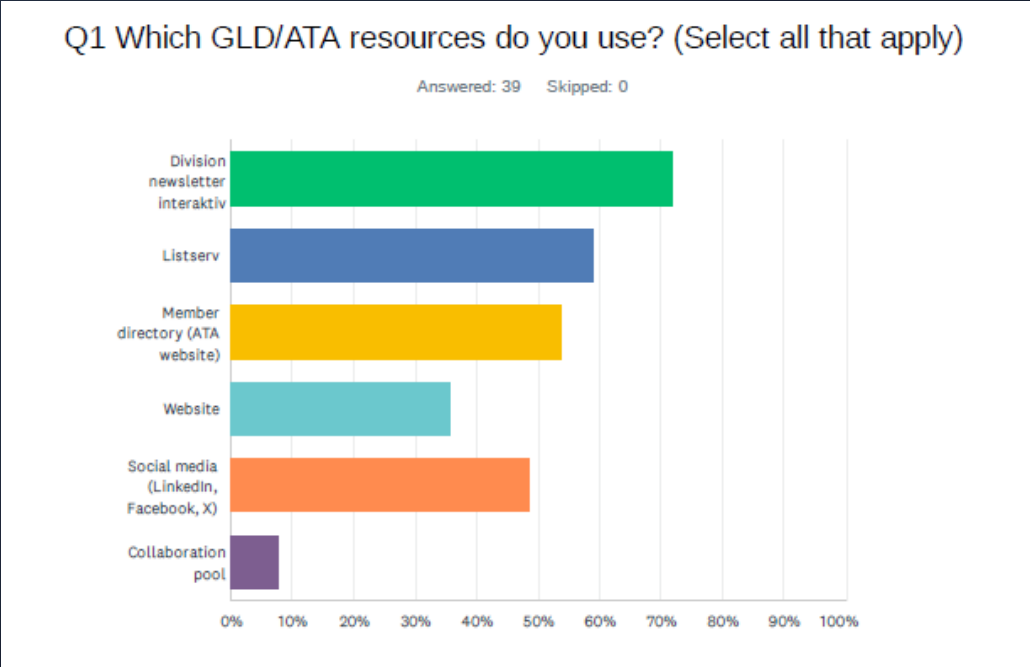

All responses were anonymous, and no names or contact information were collected\*. A total of 39 members completed the survey in two waves. The aggregated results of the survey on these slides are available on the GLD website for viewing and/or downloading.

*\*unless the respondent waived anonymity by choosing to enter their name, for example when offering to hold/host an event*

### Suggested additional resources (verbatim answers):

- interaktiv and the blog would support my work very well, if they contained content that supported my work. Fix those up, and that would be plenty.

## Reasons for not attending (verbatim answers):

- Distance and price
- Age and health
- Pandemic, cost
- Health
- Private reasons
- Cost increases, decline in onsite recruiting opps
- They became less and less fruitful as I gained more experience. Plus, a member of my local chapter evidently did what she usually does and spread false gossip about me all through the GLD, as reported to me later by one younger member, and I was getting the stink eye from everyone without knowing why.
- I always enjoy the conference, but I can't justify the cost anymore
- too far to travel to the US
- I could not afford it (cost of taking off work, flying from Germany to Portland, hotel, conference fees, etc.)
- It's expensive and some are far away
- The cost of travel is too high.
- Travel post Covid is a habit to acquire!

# Q. 14. Suggestions to increase attendance

## Q14 What would make you more likely to attend the ATA Annual Conference as a GLD member?

Answered: 27 Skipped: 12

### Suggestions to increase attendance (verbatim answers):

- More serious German sessions.
- Improve my health
- I'm not going to Boston- hotel is way too expensive and political situation too uncertain (GLD can't do anything about that one)
- If I had the time
- More German-specific sessions, often they are limited in # or have cross-conflicts in scheduling
- My work would have to bounce back to the point where I could afford it again. The conference would have to be held in a city not destroyed by riots and lax on street crime.
- If it were nearby (San Francisco, Sacramento)
- I'd be more likely to attend if it were on the East Coast so the flights aren't quite as long and I could potentially stay with family
- Location
- Closer
- Location I'm interested in
- Location in Europe where I can get there by train :-)
- Guest speaker Ruth Martin (what year?) I still stay in touch!
- I'd love to go but the costs are enormous, especially for accommodation
- More sessions for experienced translators
- I attend every year to keep current.
- A different approach on how to treat presenters, as explained in detail to Ted Wozniak
- Either cheaper registration or conference closer to me (Midwest)
- I do, but more likely to be at S&TD events
- Conferences in Europe
- If the conference is held in Jan or Feb

### Other member locations (aggregated answers)

- Don't make attending be contingent on being on google listserv or whatever it's called. I have been excluded from event because I needed to download another unwanted APP to attend. Use Zoom or Webinars that are not contingent on supporting Google's ability to track us. (*admin note: the GLD uses Zoom for our webinars*)
- I'm currently on my way out of the translation business, focusing now on teaching. However, I will remain an ATA member. And, I would like to attend the annual GLD-Meetings in the future to stay connected with my wonderful colleagues and not lose track of what is going on in the business. :-)
- I REALLY appreciate everybody's hard work! I know from personal experience how time-consuming it is. Please keep it up!
- This is the most proactive, engaged Division of ATA, you have been doing a fantastic job, thanks!
- You are doing a fantastic job! Thank you!!!
- Thank you for events provided in 2024!
- My ATA membership is valuable for both Canada and USA
- Sorry I can't be more helpful, but now more with ALTA and SCBWI
- You do GREAT work! We see it, and we appreciate it!
- The great work you are doing is much appreciated!
- A group rate for GLD or even all ATA members for Acolada, especially for the subscriptions to various dictionaries, would be quite beneficial.
- Non ATA members are in the ATA-GLD email group. Does anyone care about that?
