

ATA Science and Technology Division

Status Report January 2013

In brief

- We have approached two potential distinguished speakers for the San Antonio conference
- We updated the website at least monthly, including adding a new resource page
- The blog, Facebook group, Yahoo group email forum, LinkedIn group and Twitter feed are all active
- Headquarters sent one broadcast email to all members

The main activity in the past three months has been blog posts reviewing conference sessions and the past year's activity.

We have two appealing speakers to submit to the conference organizer. One is regional (Texas) and one from Germany was recommended to us after seeing her at the BDU conference in 2012. Both are preparing applications.

We have added a page on the website where we make available copies of relevant conference talks, and begun by posting the slides and reference material from our San Diego DS. We plan to grow this page and hope that it will one day be a widely sought after resource.
